STICK

**Professional Zoomcontrol  
for HD-ENG lenses  
and external motors**

# Design Features

## **Electronic fluid zoom especially for use with Steadicam**

Basic use is on the Steadicam "Joke" all standard diameters can be operated.

The subminiatur joystick is manufactured for aerospace applications which means it is in charge of the high retail price.

The ergonomically shaped housing allows you to have a relaxed thumb for controlling the zoom in a super fluid way.

The catchy convex shaped knob is also available in concave form.

The push direction horizontally or vertically and also the zoom turn direction can be selected via push buttons.

Zoomspeed and response pressure can be variable controlled.

Various thin and high flexible interface cables with Lemo connector are available (Fuijnon, Canon, Angenieux).

The housing is milled out of aluminum.

### **Size:**

8 x 4 x 9,5 cm (3,1"x1,6"x3,7"),  
to mount on dia 25mm/1" to 29mm/1,5"

### **Weight:**

260 g/0,6lbs

### **Power:**
