

2018 Stabilizer Lounge

Electronic Stabilizers - Steadicam™ - Support Systems

February 17th, 2018 lake Starnberger See, south of Munich, Germany

The Stabilizer Lounge is an open event for everyone who wants to be kept well informed on the latest equipment in our business.

After our last Steadicamp day we have reserved the great place for this event.

All the gear to test and to try without any hustle like on exhibitions.

Discuss with operators and users.

Instructors and students will also be on your side.

Have lots of creative talks converted directly into samples and shoots.

It seems that following equipment can be touched by you:
